

1. Open Google Colab <https://colab.research.google.com/>
2. Click File > Upload notebook

3. Upload "GP\_Rarity\_Snapshot.ipynb"
4. Change the timestamp as per the snapshot time in UTC timezone using this format. Enter your API key

```
timestamp = "2023-03-21 22:00" # Enter timestamp in UTC in this format
api_key = "your api key" # Enter your API key
```

5. Click Runtime > Run all

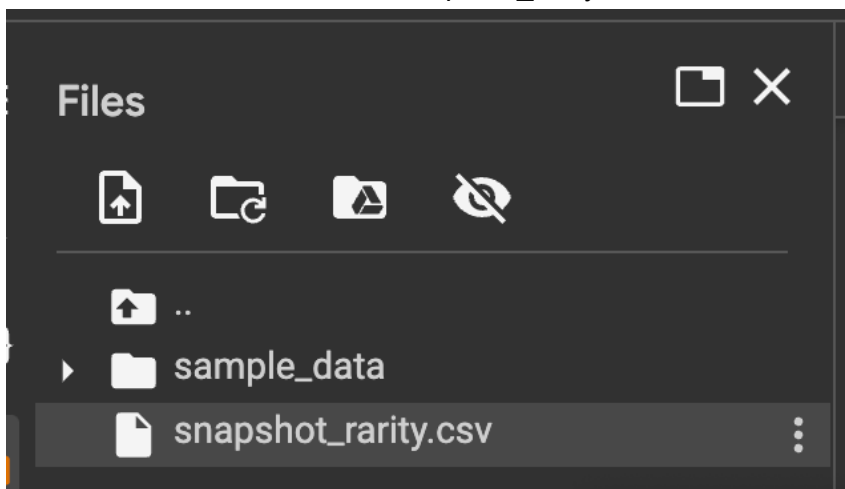

6. Click Files (Folder icon)

7. Wait until the program has completed running.

8. Click three dots beside the "snapshot\_rarity.csv".

9. Download the file
